Frank Sheehy acted as umpire and his decisions were fair and impartial, both teams being more than satisfied with his work.

Next week, which closes the 1916 season for the High School team will

be a strenuous one for our bunch. On Wednesday the fast playing Richmond team will play at Yale. This aggregation has lost but one game this year and in all probabilities the contest will be an interesting one. On Friday, the 9th, Brown City will be down and cross bats with our boys. Both games will be played at City Park and will be called at 3:30 sharp. Plan to attend. By being there you will not only see

some good ball playing but you will also give the boys encouragement and financial aid.

One would naturally think that after the unmerciful drubbing the Mariette High School team gave our boys early in the season they would be a little bit sociable and let Yale have the return In the Matter of the Estate of R. Bruce Lothian Deceased.

Why We Are Opposing A Government Armor Plant

To the People:

Some people say that the very fact that the Bethlehem Steel Company is so aggressively fighting the proposal to build a Government armor plant is conclusive proof that the Company is seeking to assure for itself the "vast profits" derived from private manufacture.

The fact is that armor making is the least profitable feature of steel manufacture.

The reason we oppose a Government plant is very simple. It is this:

Even though there is but little profit in the making of armor, we have invested over \$7,000,000 in our armor plant;

That plant is useless for any other purpose; if a Government plant is built the usefulness of our plant is destroyed.

It would be good business for us to make armor for the Government at any price over and above the actual shop cost, RATHER THAN SACRIFICE OUR ENTIRE INVESTMENT.

We do not seek to save big profits; our purpose is very frankly to save our armor plant—itself built solely for the use of the Government—from going to the scrap heap.

To do that, we are prepared to agree for any period to any terms of manufacture which the Federal Trade Commission shall say absolutely protects the Government of the United States.
